OVERVIEW

E-Merchant Lite 1.0 is a simple and easy to use shopping cart suitable for selling limited number of products. It is lightweight and perfect for small businesses who want to start to offer their product/services for sale online.

E-Merchant List has the following features including:

- Listing of products (no categories or sub categories)
- Order Management
- Multiple payment gateway including Paypal, Authorize.net and Verisign

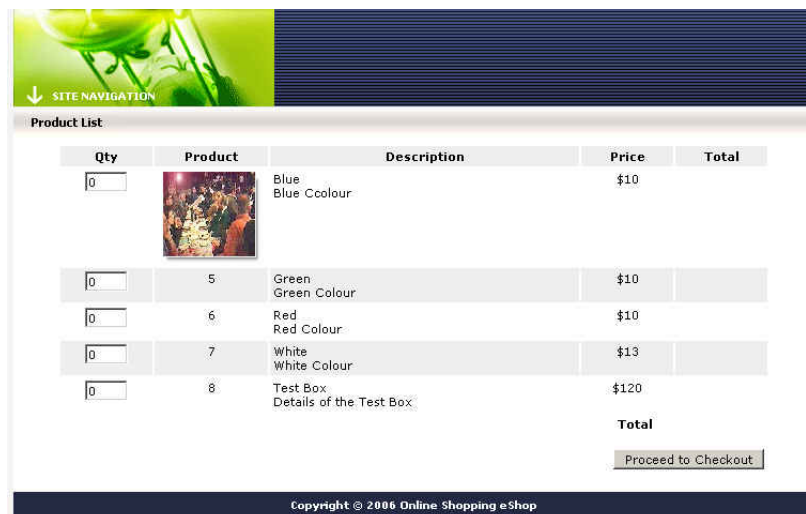

Figure 1. Front-End Interface Preview

FRONT END/ CHECKOUT PROCESS

Users can easily choose the products available by changing the quantity (Qty) of the selected product and submit the request by hitting the checkout button (namely 'Proceed to Checkout'). It is recommended to re-check the quantity and the total price before proceeds the checkout.

The screenshot shows a web interface for a checkout process. At the top left, there is a green banner with a glass of water and the text 'SITE NAVIGATION'. Below this is a dark blue header with 'Product List'. The main content area is white and contains three sections of form fields:

- Customer Details:** Includes input fields for First Name, Last Name, Phone, Fax, and E-Mail.
- Shipping Details:** Includes input fields for Address, City, State, Country (a dropdown menu with '(Select One)' selected), and Postal Code.
- Billing Details:** Includes input fields for Address, City, State, Country (a dropdown menu with '(Select One)' selected), and Postal Code.

A 'Continue' button is located at the bottom of the form. At the very bottom of the page, there is a dark blue footer with the text 'Copyright © 2006 Online Shopping eShop'.

Figure 2. Checkout Process I

Users will be directed to checkout form and they should fill the detail form as follow:
